RE: Employment Recommendation for Greg Hinton

Dear Recruitment and Staffing departments;

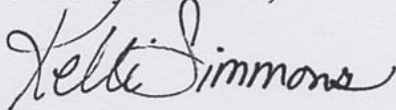

Rovi Eckel and I have had the opportunity of training and getting to know Greg Hinton. Greg has completed his externship here at Kaiser Hayward EKG department and has graduated from Mission Valley ROP as a Certified EKG Technician.

Greg has a pleasant personality and is polite and responsible. He has been courteous to both our staff and our patients. Greg maintained a positive attitude throughout his externship and has worked well with us as a team member.

Greg improved his skills as an EKG Technician. He performed EKGs on both adult and pediatric patients. He participated in our Zymed Holter Monitor and iCardia Event Recorder appointments with the set-up and patient instruction. He demonstrates good communication skills and accepts direction and suggestions with ease. Greg has administrative skills and understands clinic policies and procedures. He was able to help us with editing the Cardiologist interpretation of EKGs on the TraceMaster Web Editor and patient charting in HealthConnect.

We wish Greg well and know that he will be an asset to any medical facility. You may contact Rovi Eckel or me directly at (510) 784-4598 as we would be happy to share more details.

Sincerely submitted,

A handwritten signature in cursive script that reads "Kelli Simmons". The signature is written in black ink and is positioned below the typed name.

Kelli R. Simmons
EKG Technician
